

PRESCO

PEL1 Event Logger

The PEL1 Event Logger and Programmer allows easy monitoring and programming of multiple PAC controllers. The PEL provides a user friendly platform for access control by interfacing with a user's PC.

- ▶ Logged events are locked into memory and cannot be edited or removed, ensuring integrity of the system
- ▶ Internal replaceable battery retains memory and internal clock operation for up to 10 years
- ▶ USB 2.0 Mini B interface to PC, software supplied for Windows 7, 8.1 & 10
- ▶ Three operator levels - Programming, editing user details and viewing event only, restricting unauthorised use

104mm x 72mm x 27mm 150g
12 Volt D.C. operation (10 - 15 Volts D.C.)
Operating Temperature: 0°C to 50°C

Control and monitor up to
16 doors

Logs up to 800 users of up to
32 characters for each username
