GT

The new generation  
Hands-free colour  
video intercom

# UNIVERSALITY

## GT: the new generation hands-free colour video intercom

By imagining the GT series, we have set two goals.

Provide universal functions.

Design a hands-free video intercom, capable to have an universal panel + monitor, adapted to each type of construction: public, private, renovation.

GT : Green Tech!

Comply to the ISO 14001 standard, our new range satisfies, in fact, the strict environmental requirements (Ex. RoHS, etc.).

GT : Great Tech!

Aiphone design, reliability, quality:

GT inherits all the features from the GF and GH series, while offering significant technological innovations for your satisfaction.

## Mono-block panel

Solid, simple, friendly ... Our Mono-block panel is designed for intensive usage requirements. Compact, made of high-quality vandal-proof stainless steel, it provides excellent user comfort.

Colour display with presence detector, 170° wide-angle camera and voice announcement are some of the innovative features of this product range.

# RELIABILITY

- High definition colour camera
- 170° horizontal and 100° vertical wide angle
- Night illumination

- 3.5 LCD colour display
- Pictogramme display of operations
- Voice announcement
- Embossed Buttons

- Motion detector
- LCD display activation

## Modular panel

Design, comfort, flexibility ... Thanks to a unique style, the modular panel elegantly signs your new or already existing works. It has notably its high contrast visual display.

Proposing state-of-the-art finishes, such as the noble aspect of brass, the brilliance of chromium, or the simplicity of nickel matt, the modular panel is the ideal solution for customizing your projects.

# FLEXIBILITY

- High definition colour camera
- 170° horizontal and 100° vertical wide angle
- Night illumination

- Embossed button
- Backlit pictogrammes

- Pictogramme display of operations
- Voice announcement

## Monitors

Freedom, functionalities, quality ... Whatever the projects you have: prestige, comfort, standard, economic, ..., our various range of monitors, with various applications and finishes, offers you a tailored solution.

Provide you the free choice of the monitor within the same installation: high-range with picture memory, hands-free or handset.

The GT series offer you the quality of the Aiphone colour, as well as a complete remarkable options.
